

A photograph of a Heatilator fireplace in a living room. The fireplace is a dark, multi-sided gas model with a black frame and glass doors. It is set within a decorative surround made of dark, textured stone or marble. The top and bottom of the surround are finished with white, multi-tiered crown molding. Inside the fireplace, a fire is burning brightly over a bed of logs. To the left of the fireplace, a portion of a beige armchair is visible. In the background, a large window looks out onto a green landscape. The overall lighting is warm and inviting.

Multi-Sided Gas Series

direct vent & b-vent gas fireplaces

a room
with a view

The Heatilator gas multi-sided series offers unmistakable views of the fire. This series has something for everyone and every home, with a dramatic peninsula model offering three-sided viewing, a see-through model adding warmth and beauty to two separate rooms, or a corner model designed to light up tight spaces. Available in left-hand and right-hand models, these unique multi-sided units can be installed virtually anywhere. With unsurpassed dependability and exceptional value, the Heatilator gas multi-sided series allows you to enjoy the view.

- Clean, louverless design
- Choice of corner, peninsula and see-through configurations
- Available in direct vent or B-vent versions
- Extensive choice of decorative fronts, surrounds, granite and marble finishing materials
- Two-toned painted refractory
- Optional fan for direct vent models
- Modulating flame control with variable BTU/Hour Input and flame height: 27,000 to 36,000 BTU/Hour Input for 36" models; 14,700 to 21,000 BTU/Hour Input for 31" model
- Certified for installation in bedrooms; direct vent models also certified for mobile homes
- Heater listed to ANSI Z21.88 standards (Direct vent models)

U.S. Efficiencies

Steady State - Since most homeowners use their fireplaces for an extended time while they are in the room, Steady State measures how efficiently your fireplace converts fuel to heat once it is warmed up and running in a "steady state".

AFUE - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature.

RATING	GDST4336I	GBST4336I	GDST3831I
Steady State	72%	N/A	74%
AFUE	53%	N/A	47%

Canada Efficiencies

EnerGuide (CSA P.4.1-02) - EnerGuide is a rating used in Canada to measure annual fireplace efficiency.

RATING	GDST4336I	GBST4336I	GDST3831I
EnerGuide (CSA P.4.1-02)	59%	N/A	51%

Direct Vent Technology

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

To learn more about Direct Vent Technology, visit heatilator.com.

IntelliFire™ Ignition System

Our exclusive, state-of-the-art, IntelliFire ignition system reduces gas consumption and thermogenerator wear by providing a pilot flame only when needed. It also supplies a back-up battery system to run the fireplace during a power outage.

To learn more about IntelliFire, visit heatilator.com.

Who Would Benefit From Heatilator Multi-Sided Gas Fireplaces?

Home Owners:

- Who want their fireplace to provide a dramatic design statement in their home
- Who need a functional room divider to define living areas in their home
- Who want to preserve positive indoor air quality for their family (DV models)
- Who want warmth without waste through energy efficient zone heating (DV models with IntelliFire)
- Who want to increase the resale value of their home

Home Builders:

- Who want a dramatic focal point to make their home design more appealing to homebuyers
- Who need a functional room divider in key design areas such as the owner's suite, or separating living and dining spaces
- Who want to provide their customers with fireplaces approved by all major Green building programs (DV models)
- Who want to increase the energy efficiency performance of their homes (DV models with IntelliFire)
- Who want to increase their customer's satisfaction with multiple finish styles and colors
