"Cinch" Pipe

Venting & Accessories

Installing Pipe is Now a Cinch!

- **Design improvements** - Redesigned to reduce chance of moisture infiltration on vertical applications.
- **Installation is a snap** - Literally! Just snap pipe components in place and you will hear the sound that verifies a secure fit. Cinch pipe has also been designed to be easily disassembled if necessary.
- **Stainless steel inner flue** - Withstands heat better than other materials to ensure lifetime integrity of the exhaust flue.
- **Unitized construction** - Ensures that inner flues are connected and overlapped appropriately. Very quick to install!
- **Extended and flared inner flue** - Allows you to get each section started easily for quick and trouble-free connection.
- **Unitized slip section and non-unitized straight sections** - Available for variable length installations.
- **One vent kit** - Meets your installation and inventory needs!
- **Limited Lifetime Warranty** - Best warranty in the industry!

Termination caps

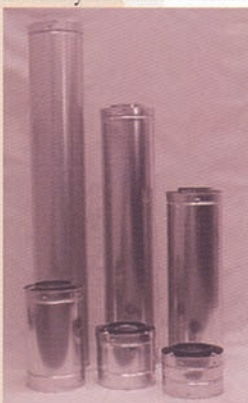

Wall shield and firestop spacer

Roof flashings for gradual (RF6M) or steep (RF12M) roof pitches (available in multipaks only)

Elbows available as 90° (DVP90), 90° starter with an air deflector (DVP90ST) or standard 45° elbow (DVP45)

DVP4, DVP6, DVP12, DVP24, DVP36, DVP48

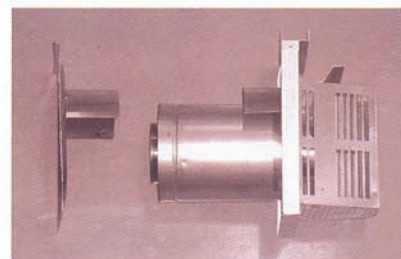

The all new vent sections easily snap together for a secure seal. If dismantling is necessary, twist the pipe sections so the seams line up and simply pull them apart.

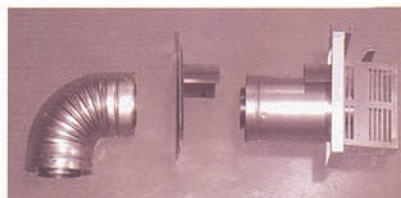

DVP12A
One unitized slip section available to meet all of your installation needs.

DVP12MI, DVP24MI
Non-unitized sections allow more flexibility when connecting vent sections by allowing you to cut to length.

DVP-TRAP
Horizontal termination cap with telescoping flue containing: DVP-WS wall shield with heat shield 2 fastener packs.

DVP-TRAPK Kit
Vent kit containing: DVP90ST starter elbow DVP-WS wall shield with heat shield DVP-TRAP termination cap with telescoping flue 2 fastener packs

DVP-AD1 - Adapter for direct vent fireboxes (date code preceding 1503) (available in singles or multipak of 9)
DVP-AD2 - Adapter for existing venting components (date code preceding 1503) (available in singles or multipak of 9)
Available for a limited time only.
